Power Steering Treatment

Soltec™ Power-Steering Treatment is formulated to reduce friction and wear in the power-steering pump, valves and springs. It helps eliminate squeals and chatter due to "sticking" components and foaming. It conditions and protects seals against drying and shrinkage to help prevent leaks.

- **Helps prevent squeals and chatter in power steering systems.**
- **Helps reduce pump wear and noise.**
- **Conditions hardened and dry seals and helps prevent internal leaks.**
- **Compatible with all domestic and most foreign vehicles with power-steering units.**
- **Ideal for new and used vehicles.**

Application:

Pour contents into power-steering reservoir. **Do not overfill.**
