

## Product Data Sheet

Part # 30001

### Fuel Treatment

**Soltec™ Fuel Treatment #30001** is designed to prevent deposit build-up in the fuel system, including the fuel injectors, intake valves and combustion chambers. By preventing buildup of harmful deposits, this product helps avoid problems such as stalling, hesitation, power loss and restricted fuel flow. **Soltec™ Fuel Treatment** can be used with leaded or unleaded fuel, and it will not harm catalytic converters or oxygen sensors.

- Helps Maintain Fuel System Performance - keeps engines running cleanly to operate more efficiently.
- Keeps Injector Tips Clean for Better Fuel Flow - clean engines maximize fuel efficiency.
- Protects - will not cause harm to catalytic converters or fuel systems.
- Versatile - Can be used in leaded or unleaded fuel.

#### **Application:**

Add contents of the 8 oz. bottle to the fuel tank at time of fill up. For fuel tanks filled with over 20 gallons, use two 8 oz. bottles.
