

SOLTEC® HEADLIGHT RESTORATION IS A PATENTED, STATE-OF-THE-ART, SPRAYED ON CHEMICAL FORMULA THAT RE-NEWS YOUR OLD, HAZY HEADLIGHTS, BRINGING THEM BACK TO THEIR ORIGINAL CRYSTAL-CLEAR BRILLIANCE.

Most headlight repair kits today are based on short term solutions that require repeated maintenance. This includes temporary polishing systems that do not last, even when a clear coat is applied. By contrast, **SOLTEC® Headlight Restoration** was engineered with the most permanent UV-A

absorbers available. **SOLTEC® Headlight Restoration** provides for chemical, water, heat and abrasion resistance; unlike any other product available on the market. **SOLTEC® Headlight Restoration** also uses the most advanced, ultraviolet drying agents for a thorough, quick evacuation of solvents, leaving the clearest and hardest coating available.

Before **SOLTEC® Headlight Restoration** Application

After **SOLTEC® Headlight Restoration** Application

The **SOLTEC® Headlight Restoration** Difference:

- ▶ **SOLTEC® Headlight Restoration** has been in use in the Professional Market since 2009.

Packaging:

Part No.	Content	Package
75130	1.5 oz Single App Kit Box	12 Kits / Case
75131	LED UV Curing Lamp	No Minimum

Before **SOLTEC® Headlight Restoration** Application

After **SOLTEC® Headlight Restoration** Application

Benefits:

- ▶ Restores your yellowed, cloudy, faded headlights to like new condition at a fraction of the cost of replacing them
- ▶ Increases nighttime vision by up to 50%
- ▶ Increases your vehicle value

Test Results:

SOLTEC® Headlight Restoration has been 3rd party tested by Q-Labs under SAE J2527 testing protocol. **SOLTEC® Headlight Restoration** treated headlights were subjected to continuous testing in a Xenon Arc Chamber for a period of three months and were found to have such minimal degradation that it could not be seen with the naked eye. In accelerated weathering testing, **SOLTEC® Headlight Restoration** indicated an extended useful lens life.

Compliance:

- ▶ Acceptable under required MIR values
- ▶ 50 State VOC Compliant

LED UV Curing Lamp:

SOLTEC is pleased to introduce the EVERBEAM Curing Lamp. Using **SOLTEC** technology for Professional Grade Headlight Restoration services often requires UV curing to achieve crystal-clear lenses quickly, especially in colder climates. This new LED UV Curing Lamp is reliable, portable, affordable and efficient and will accelerate the drying process to under 5 minutes.
