

DUAL PUMP COOLANT FLUID EXCHANGER

The Soltec® dual pump coolant exchanger offers mobility and ease of use, allows the technician to perform a complete cooling system flush and coolant exchange in one easy step. It is attached to the upper radiator hose through supplied adaptors. The cooling system pressure-relief feature can depressurize the cooling system and evacuate fluid before and after a service.

Part #94340

FEATURES / BENEFITS

- Easy to use controls
- Computer controlled system
- Self diagnostic system-unit will report trouble codes if unit malfunctions• Removable 6-gallon tank system
- Includes Patented quick-connect adapter system
- Pressure gauge
- Rugged plastic molded chassis (no rusting or paint chipping)
- Heat shielded adapters; color coded
- Removable 6 gallon tank system
- Fluid level reading on tank
- Battery powered

EQUIPMENT SPECIFICATIONS:

Dimensions:	40" H x 24" W x 22" D
Weight :	75 lbs. (34.019 kg)
Chassis:	Low-density polyethylene
Power:	12 VDC
Tank Capacity:	24 quarts - per New & Used
Hoses:	10' high temp w/ safety couplers
