

AUTOMATIC TRANSMISSION FLUID EXCHANGER

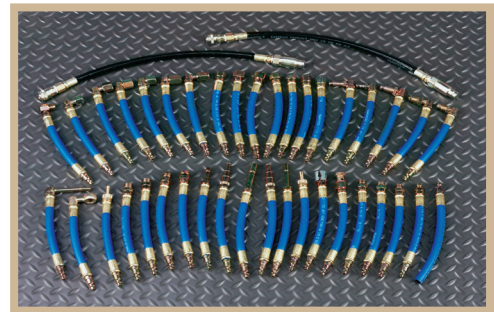

The Soltec® Automatic Transmission Fluid Exchanger machine allows the technician to perform a complete transmission flush and fluid exchange. State of the art features make this ATF exchanger the fastest and most versatile machine on the market. Once the machine is attached to the transmission cooler lines through the supplied adapters, the process is as simple as pressing one button. Old fluid is removed at the same rate new fluid is added thanks to its Fluid-Control System.

Part #94880

FEATURES / BENEFITS
