

POWER STEERING / DIFFERENTIAL FLUID EXCHANGER

The Soltec® power steering and differential fluid exchanger machine allows the technician to perform a complete fluid exchange in one easy step. With two machines in one the power steering side of this machine connects to 12 VDC while the differential side connects to compressed air.

Part #95770

FEATURES / BENEFITS

- Easy two switch operation
- Flow control valves conveniently located at the end of service hose.
- Includes Y adapter for hard-to-reach power steering reservoir.
- One touch drain button
- Comes with remote control for power steering side
- Automatic coupler shutoffs at the end of service hoses
- Rugged plastic molded chassis (no rusting or paint chipping)
- Large capacity 5 gallon waste tank
- Standard set of adapters included

EQUIPMENT SPECIFICATIONS:

Dimensions:	40" H x 18.5" W x 38.5" D
Weight :	80 lbs. (36.28 kg)
Chassis:	Low-density polyethylene
Power:	12 VDC
Capacity:	new 3.5 gal. / used 5 gal.
Hoses:	10' high temp w/ safety couplers
